ORDERABLE NGS ASSAYS:

01.	Human Whole Genome Sequencing (WGS)
02.	Human Whole Exome Sequencing (WES; IDT)
03.	Gene Expression Profiling (GEx) – Differential Expression Analysis at Gene level
04.	mRNA-Seq – polyA-enriched mRNA Transcriptomics
05.	RNA-Seq – rRNA-depleted Total RNA Transcriptomics from human/mouse/rat/bacteria
06.	Gene Expression Profiling (GEx) – Differential Expression Analysis at Gene level (20 M SE reads)
07.	Small RNA-Seq – Transcriptomics of small RNAs (miRNAs etc)
08.	16S rDNA-based Microbial Diversity Analysis for Eubacteria
09.	ITS-based Microbial Diversity Analysis for Fungi
09.	Shotgun Metagenome Analysis (DNA-Seq)
10.	DNA-Seq (not PCR-free)
11.	PCR-free DNA-Seq
12.	Whole Genome Sequencing (WGS) – Custom Genome (please specify the expected genome size)
13.	Targeted Sequencing (Target-Seq) – Gene Panels (please specify your demand)
14.	Long Read Amplicon Sequencing (2x300 bp PE reads or please specify)
15.	ddRAD-Seq
16.	Whole Genome Bisulfite Sequencing (WGBS)
17.	Reduced Representation Bisulfite Sequencing (RRBS)
18.	Sequencing only service
19.	Other (please specify)
NI	Nucleic Acid Isolation from Different Matrices (please specify)
BI	Bioinformatic Analysis of Sequenced Data (please consult us)
BS	Biostatistic Analysis of Project (please consult us)
